We are excited to tell you that our school has partnered with Karri, an easy-to-use payment application. We realize that making small payments for collections can be time-consuming and frustrating for you. Having to find the exact change needed an envelope for the money and hoping that your child delivers it to their teacher is an inconvenience. Then there’s the issue of diarizing the event and keeping track of multiple school events within your busy work schedule.

Karri solves all of this.

Karri is an innovative mobile payment application that allows you to make quick payments for school collections using your smartphone. Karri is powered by Nedbank but will work with any bank ensuring the safety and security of all information loaded onto the app. It is therefore fully POPI and PCI DSS compliant with stringent internal measures in place to keep all payments secure. We have furthermore entered into a contractual agreement with Karri to guarantee this.

The benefits of this app are applicable to both you as a parent and us as your school. Having cash on our school premises is a constant concern, as it is a security and safety risk, as well as a burden to our staff members. Karri benefits you as a parent in that you are easily able to pay for any transactions at the click of a button and stop the dreaded search for the right change at the last minute. This will also remove the responsibility and pressure from your child and will replace the need for sending envelopes of cash to school for various collections. There is NO charge to the parents for this application. It is FREE to download from the Apple Store or Google Play Store plus it uses less data than Whatsapp. You only need an email address to access the app.
